

General competition rules for cleaning-technology professional tournament

I. Description of competitive conditions of Clean Europe:

- a. Competition consists of four races and the finals.
 - 1) Warsaw
 - 2) Verona
 - 3) Bucharest
 - 4) Budapest (competition and finals)
- b. Competition will have two events:
 - 1) **BASIC CLEANING (using single disk machine and wet vacuum cleaning)**
 - 2) **DAMP MOPPING**
- c. To enter the races, a two-person team and an expert is needed.
- d. Teams may enter all races if they pay the 30 € entry-fee. **In 2013, that is the first year of the competition, there will be no entry-fee.**
- e. For entry to the finals of the tournament teams have to take part in at least one race, and qualify themselves for the finals.
- f. All races will have official referees. The result of the competition will be agreed on with subjective and objective marking. Of the maximum, 50-50 % will be obtained with objective and subjective marking.
- g. The jury of the competition are the experts of the teams. The experts can't assess their own team.
- h. All teams and their members will each receive certificates. All important data regarding the qualification will be marked on the certificates.

II. Description of competition tasks:

1) BASIC CLEANING (single disk machine and wet vacuum cleaner)

- Task of competition: single disk machine will be led on the field way it scrubs the largest surface possible. At the same time all water must be soaked up with a wet vacuum cleaner.
- Field is (2,5 m X 1,25 m) pvc coated and it has 12 cones on it.
- Two team members will work at the same time, one of them works with the single disk machine and the other with the wet vacuum cleaner.
- Only specified tools provided by the organizers must be used.
- Single disk machine is equipped with a hard brush and two litre of water in its container.
- The machine will start at the line till it finishes at the end of the course where a single cone has to be rounded three times. Then the machine will be parked at the stop sign. Meanwhile teammate soaks the water.
- The task is finished when the soaking teammate waves finish with his/her hand.
- To finish the task teams have five minutes. The five minutes contained the possible punishment time as well. The team doesn't get points for overtime activity.
- During the task achievement expert judge the subjective marking (implementation) according to the following points: elegance, size of cleaned surface, and the driest possible floor.

2) DAMP MOPPING

- Task of competition: damp mopping of the field, rinse of mop after every 6 m² (at the start and two more times)
- Team members fulfil the task separately, cleaning the surface in order A, B, C.
- The competitive exclusion criteria are: changing the order A, B, C; failure of rinsing after every 6 m².
- From the two individual achievements the better will be considered.
- Participation in the competition is conditioned by appropriate mop and two-bucket system.
- Field is 18 m² pvc coated and it has 12 cones on it.
- For task achievement each individual has 5 minutes. The 5 minutes contains the possible punishment time as well.
- Experts judge according to subjective points: quality, ergonomics and the driest possible floor.

III. Rules of judgement

The ultimate rank of the competition is given by the points received for the objective (achievement) and subjective (implementation) marking.

- a) For the objective marking (achievement) maximum 300 points can be received. (5 minutes x 60 seconds) This could be only achieved if the task was accomplished in 0 seconds.
 - The achieved scores are agreed on regarding the score corresponding to the task achievement time and the added punishment points which the judges withdraw from the 300 points. If the points to be withdrawn is more than 300, then his/her certificate will contain minus points.

- Every overturned cone means 15 points punishment in every race, but the overturned cone of greater importance which has to be rounded three times by basic cleaning, means 30 point punishments.
- The touched but not overturned cone means 5 points reward.
- b) Maximum 300 points can be given for the subjective marking (implementation). The punishment points will be withdrawn from these.
 - The subjective evaluation will be made with votecard.
 - Every regard is worth 100 points.
 - The voting cards range from 10 % to 100 %.

All rights for modification of competition rules is reserved.
