TASKI® The ULTIMATE Cleaning Machines™

AERO 8/15

The best just got better

Tougher, stronger, better

TASKI AERO 8/15 Range brings you:

- Compact and robust TASKI design
- Sustainable high-efficiency concept
- Ultra-silent TASKI whisper technology
- Upgraded components and accessories for even greater durability

Upgraded components and accessories for even greater durability

The series 2 upgrade delivers increased toughness and robustness to all AERO 8/15 models. Starting with new wheel, hood cover, moulding joints, cables and extra protective packaging. New accessories include stronger & tougher telescopic tube, metal elbow and hose connector.

Compact and robust TASKI design

The functional, compact and robust design allows for storage in small spaces or cupboards. The integrated ergonomic handle also makes it very easy to carry and provides a simple and convenient manual cable tidy. Replacement of parts such as cables and filters through clever design can be carried out by the user in seconds without the need for any tools. In terms of ergonomic design, the TASKI AERO PLUS is unmatched, with a foot pedal switch, two park positions and a high-quality user-friendly accessories set as standard.

Sustainable high-efficiency

The TASKI AERO tub vacuum cleaners are highly efficient and use a 585W state-of-the-art vacuum motor, which delivers the same cleaning performance as vacuums with 900W or more. As a result, the vacuum cleaner saves significant amounts of energy and reduces CO2 emissions without compromising on cleaning results at all.
